## FOR IMMEDIATE RELEASE

**Pittsburgh, PA**, Silver Eye is proud to announce ***Radial Survey Vol.3***, on view from November 2, 2023 to February 2, 2024. *Radial Survey* is Silver Eye's flagship biennial exhibition featuring preeminent emerging and mid-career photographic artists based within 300 miles of Pittsburgh. This third edition, *Presence*, includes seven artists nominated by *Radial Survey Vol.2* artists and selected by Silver Eye's curators.

These seven artists create work that invites us to explore the relationships between presence, visibility, and absence. Recontextualizing family and found photographs, reimagining genres, and affirming their unique subjective experiences, these artists create visually compelling languages that recognize and subvert forces larger than ourselves. In doing so, they question learned ways of seeing and how these affect our contemporary experience.

*Radial Survey Vol.3* will be accompanied by an extensive catalog, including original essays by Anna Mirzayan, Sean Beauford, Silver Eye Executive Director Leo Hsu and Deputy Director of Programs Helen Trompeteler. A symposium with artists and scholars from around the region will be held on November 3, 2023, to discuss the exhibition's themes and its broader implications, and to reinforce community around the powerful experience of photography and art.

*Radial Survey Vol.3* is generously supported by The Leonian Foundation and Henry Simonds.
